TWENTIETH CENTURY FUEL

Little Town of Foster to Be
Supplied By Columbia
Pipe Line

Augusta Chronicle.

The little village of Foster, this county, is curiously displaying a most progressive spirit and a movement is almost consummated that will prove of almost incalculable benefit to the citizens of that place. As is well known the gas pipe line runs very near Foster, and the people realizing the benefit derived from the use of natural gas, started a movement to supply the town with gas. Thirty-four of the citizens signed an agreement to use gas, of which number several have had their homes piped for gas, and we are informed that it will be but a short time until the people there will be using gas for both lighting and heating purposes. We are also informed that Lenoxburg has caught the fever and the residents of that thriving little burg, although located four or five miles from the pipe line, are seriously considering connecting with the main line and using gas also.

The gas company installed the system at Foster, running the pipe to the corral in front of the place using gas. For the first five years a rate of 30 cents per 1,000 cubic feet will be charged for the gas, and the second five years will be at the rate of 35 cents.

The residents of this thriving little village will not only use the natural gas for lighting and heating in the homes and places of business, but gas will be used for street lighting, arrangements now being under way to commence lighting.

McAtee and Allender, who had the contract for the laying of the gas mains in Foster, offered to pipe the gas to Lenoxburg at 8 cents per foot, furnishing the pipe and doing all the work. Residents of the lower end of the county do not believe that the gas company will put in the gas system to the village of Lenoxburg, owing to the small number of people living there who would use natural gas. Foster, with natural gas for lighting and heating, with good shipping facilities both by river and rail, will be an ideal location for factories of various kinds and through J. B. Hiles, Cashier of the Foster Bank, we learn that the citizens there will make an effort to get several factories to locate there.

A Christmas Wedding

Mr. and Mrs. Lawrence Bowden of Madison, Wis., announce the engagement of their daughter, Nannie, to Mr. E. P. Curtis. The wedding will be a quiet affair the last of December. Until within the last year Miss Bowden's home was in Flemingsburg, where she was a social favorite with every one. Mr. Curtis is an electrical engineer at Alliance, O.

HERE SHE AM!

Pure and Simple Double Distilled Essence of Distended Rot

Frankfort Journal.

It has been said, naively, of course, that in order to produce literature a writer must have a bad digestion. This is an exaggeration of the fact that an exuberant nature is apt to reflect itself in cheap "free writing."

An example of "free writing" done by a red-blooded realist appears under the "Wilson" N. C. date line in The Charlotte Observer. In its unrivaled richness we give it to the readers of The State Journal as a rare tid-bit:

"One of the most beautiful and most magnificent and most brilliant wedding scenes that was ever presented to a Wilson assemblage will be witnessed on Tuesday night, November 12th, when Lawrence Britt, the President of the Britt Dredging Company, will lead to Hymen's altar Miss Mildred Roney, the highly talented and brilliantly polished and very fascinating daughter of our highly esteemed townsman, Captain R. C. Roney, one of Wilson's most prominent and influential business men, for in his noble life of splendid usefulness, he has exhibited the resplendent virtues of loftiest citizenship. And as Miss Roney has richly inherited his virtues, and the charms and graces of her elegant mother she is one of the most popular and lovable maidens in Wilson. And in addition a vast array of the most ravishing personal charms she has musical talent of the highest order, being a vocalist of the sublimest powers, for she has a richly cultured voice of richest melody and rarest sweetness, and her seemingly heaven-tuned notes are as pure and as sweet as the image of the morning star when bathing in the dewdrops that lie settling in the fragrant petals of the flowers. And Mr. Britt is a high-toned gentleman, and is worthy of his brilliant jewel that is to sparkle in the casket of his love and devotion, and he is endowed to be congratulated, for under her lovely light every scene will be a picture of Paradise, every word a poem of enchantment, and every sound an echo of celestial harmonies, for with the love of such a jewel won, Heaven with its raptures on earth has begun."

Presumably the writer has a digestion that would not balk at transforming into nourishment a Dutch supper plus a couple of coconuts and a miscel pie.

3100 Howard, 3100.

The readers of this paper will be pleased to learn that there is at least one dread disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive and reliable remedy for the cure of Catarrh, being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and the patient's strength by building up a new and healthy nature.

UGHLY HANDLED

C. & O. Will Have to Pay the Bill

Shelville Byrns and Cole, attorneys for W. Jett, have been offered \$1,500 by C. & O. Railroad as a compromise in a suit brought by Mr. Jett for damages from road.

It will be remembered that a jury in the number term of Court returned a verdict of \$100 in favor of Mr. Jett, who claimed that he was roughly handled by employees of the railroad while en route from Maysville to Walleburg.

Byrns and Cole claim that the case was so aggravated that they are doubtful as to the advisability of compromising the case.

FIRE DON'TS

Chief Hite of Maysville Fire Department Issues a Timely Warning

Every year in America many children are burned to death by fire from Christmas candles.

Some don'ts—
Do not decorate your Christmas tree with paper, cotton, or any inflammable material. Use metallic tinsel or other non-inflammable material for decorations.

Set the Christmas tree secure so that children in reaching for things do not tip it over. Do not use cotton to represent snow. If you must have a false snow, use asbestos fiber.

Do not permit children to light or relight candles while older persons are not present. They frequently set fire to their clothing. The tree itself will burn when needles have become dry.

Do not leave matches within reach of children at holiday times.

Candles are meant to be lighted, and if children get matches they will experiment with them; they imitate older people.

A house of merriment is better than a house of mourning.

By following the above suggestions you may avert a holiday fire in your home.

EDWARD HITE,

Chief Maysville Fire Department.
